Research Interests

Monetary Economics, Macroeconomics, and Time-Series Econometrics

Education

Ph.D., Economics, University of British Columbia — 2021 – 2027 (expected)
M.A., Economics, Queen's University — 2020
B.Sc., Economics (Honours), University of Montreal — 2018

Job Market Paper

Between Weak and Contaminated: Identifying Monetary Policy Shocks with Imperfect Instruments [Paper]

Presentations: Canadian Economics Association (2026); Student T2M Conference, HEC Montréal (2026); Banco de México (2026)

Abstract: No available instrument for monetary policy shocks is both strong and clean. Orthogonalising high-frequency surprises on pre-announcement information makes them cleaner but weakens their first-stage strength, and that weakness magnifies any residual contamination. Instruments that cover the whole policy decision, rather than the narrow window around the announcement, are strong but exposed to other contamination. I group instruments built from the same construction into families, whose members share their contamination but differ in relevance. Demeaning within each family removes the shared contamination, and pooling across families strengthens the first stage. In U.S. data, the pooled instrument is much stronger than the orthogonalised surprise and identifies a gradual decline in output and prices and a widening of credit spreads.

Necessary but Not Sufficient: Orthogonalising Monetary Policy Surprises

Information, Rule or Shock? Decomposing Monetary Policy Surprises

Where Workers Come From: Outside Options, Job Ladders and Job Creation on a Network of Labour Markets

Teaching Experience

University of British Columbia, Vancouver, B.C. Canada

Instructor
ECON 356: Introduction to International Finance, Undergraduate — Winter 2025

Departmental Tutor
ECON 602 & 603: Macroeconomics I & II, Ph.D. — 2024 – present

Teaching Assistant

ECON 502: Macroeconomics, Masters — Fall 2025
ECON 305: Honours Intermediate Macroeconomic Analysis I, Undergraduate — Fall 2025
ECON 356: Introduction to International Finance, Undergraduate — Fall 2022 – Fall 2024

Queen's University, Kingston, Ontario Canada
Teaching Assistant
ECON 348: Law and Economics, Undergraduate — Winter 2020
ECON 262: Labour Markets and Gender Differences, Undergraduate — Fall 2019

Research and Professional Experience

Banco de México, Mexico City, Mexico — Summer 2026
Ph.D. Research Intern

University of British Columbia, Vancouver, B.C. Canada — 2025 – Present
Research Assistant for Paul Beaudry

University of British Columbia, Vancouver, B.C. Canada — 2022 – 2023
Research Assistant for Giovanni Gallipoli

Bank of Canada, Ottawa, Ontario Canada — 2018 – 2019
Research Assistant, Commodities Division

Hydro-Québec, Montreal, Quebec Canada — Summer 2017
Intern, Demand Forecasting Division

United States Consulate General, Montreal, Quebec Canada — Summer 2016
Intern, Economic and Political Section

Honors and Awards

Stone Centre on Wealth and Income Inequality Ph.D. Fellowship (UBC) — 2026 – 2027
President's Academic Excellence Initiative PhD Award (UBC) — 2021 – 2025
FRQSC – Doctoral Fellowship — 2021 – 2025
Faculty of Arts Graduate Award (UBC) — 2021
Scarthingmoor MA Prize in Economics, Queen's University — 2020
Joseph-Armand Bombardier CGS – Master, Queen's University — 2019 – 2020
Master Tri-Agency Recipient Recognition Award (TARRA), Queen's University — 2019
Alma Mater Scholarship (declined), University of Montreal — 2018
SAE Excellence Award (Student Services), University of Montreal — 2018

Computer Skills

Statistical Packages and Languages: MATLAB, Dynare, Python, Julia, Stata

Languages

French (Native), English (Fluent)
